

Angina Technologist Ltd.

www.anginalt.com

ANGINA Technologist Ltd. is a consulting and construction company based on Architecture, Electrical, Civil & Mechanical Engineer and any kind of Engineering works in all over the Bangladesh.

ANGINA Technologist Ltd. contributes for building the foundation of architecture, civil & electrical engineering, green-housing, industry construction, electrical & fire safety solution, automation and prepares a better foundation of lives. We are going to growth the future value of life as a facilitator for the meeting of future technology in daily lifestyle. We're committed to provide the quality services and products to our valued Clients.

Why Choose Us

Our team comprises of highly qualified and experienced engineer who worked at ACCORD, ALLIANCE, BGMEA. We have highly experienced technical team able to do construction, installation and technical support for (Architectural, Structural, Electrical, Fire & Electrical Safety) of Residential, Commercial, Factory, Hotel, Hospital, Educational building etc Angina provides earthquake tolerant, fire and electrically safe, attractive modern advanced engineering design for economic construction and decoration. Quality product & Best price. No compromise on Quality & safety. We highly cooperate to approve any plan.

Business highlights : Commitment for quality, Competent and Professional services.

Business goal : To increase the future value of life with an innovation, to build Beyond the limits.

Business area : All kinds of Architectural & Engineering Consultancies, Construction works, Interior design and works including relevant products Sales & Services.

Trade License : North City Corporation, Dhaka, Bangladesh.

TIN & VAT : NBR, Tax Circle-214, Dhaka, Bangladesh.

Bank : AB Bank Limited.

Branch Office:

Sabalia Purbo Para, Railway
Station Road, Tangail Sadar,
Tangail-1900.

Phone: +8801618-854885,
+8801319-868818

Email: anginainfo@gmail.com

Corporate Office:

House: 86/1, Uttar Adabor, Main Road ,
Adabor, Dhaka-1207.

Phone: +8801618-854881,
+8801618-854884

Email address : sales.anginatl@gmail.com, anginainfo@gmail.com

Our services Area

Complete design with technical solution in the field of Architecture, Civil, Electrical, engineering including interior design & works, Fire safety system, Lightning Protection System (LPS) according to level of all standard. Construction & Design services for residential, commercial, industrial, educational building. Installation of electrical sub-station, fire safety system, factory or industrial machineries and equipment including Digital survey, Soil test and more.

OUR SERVICES

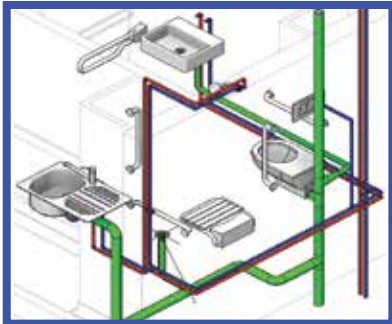

ARCHITECTURAL AND MASTER PLANNING

STRUCTURAL DESIGN

ELECTRICAL DESIGN

PLUMBING DESIGN

LIGHTNING PROTECTION SYSTEM (LPS)

FIRE SAFETY SOLUTIONS

RSC, RAJUK PLAN APPROVAL

PROJECT MANAGEMENT AND SUPERVISION

FIRE SAFETY WORKING & PLAN APPROVAL

FIRE SAFETY & SECURITY SOLUTIONS

Fire Hydrant & Sprinkler System

Fire & Safety Equipments

Fire - Equipments

Hose Pipe System

Fire Alarm System

Fire Extinguisher

CCTV Solutions

FIELDS OF INTEREST/EXPERTISE

INSPECTION, DESIGN AND CONSULTANCY

Efficient Design for Sustainable Development ...

Angina Technologist Ltd., deals with the inspection, designing and planning phases of industrial, commercial, and residential arena. Our expertise and know-how are focused on maximizing the utilization of available resources in the best possible way. Our team members are proficient & experienced in the field of inspection who can come up with the best mitigation plan when there are any flaws or irregularities are found. Sustainability is affirmed by incorporating the cost effectiveness, quality aspects, energy savings and environmental concerns in the design and planning stages.

- o Structural Stability/Integrity analysis
- o Fire Risk Assessment
- o Electrical Safety Assessment
- o Fire Simulation
- ✓ Hazard Mapping
- ✓ Design of Fire Safety (Active/Passive) Systems
- o Fire Detection & Alarm System
- o Fire Protection/Suppression System (Hydrant, Sprinkler, Deluge,
✓ Clean Agent Extinguishing, AFFF etc.)
- ✓ Fire Safety (Management) Plan
- ✓ Mechanical, Electrical and Plumbing (MEP) solutions
- ✓ Project Management Consultancy (PMC)
- ✓ AMC (Annual Maintenance Contracts) Management
- ✓ Fire Drill & Customized Emergency Action Plan

SUPPLY, INSTALLATION & COMMISSIONING

Concluding the mechanization ...

Angina Technologist Ltd., mounting functional systems from scratch to a sophisticated operating state. Presumably, the machines and equipment are installed and commissioned according to the specification in an optimized way by our skilled team members. Our services are accessible whenever required whether it's operation, maintenance or improvement. We dedicate years of industrial sourcing experience to deliver products from manufacturers ends to your hand with supreme authenticity. On time delivery and conservation of quality are the most prioritized attributes of ours.

- ✓ Fire Detection System (Addressable/Conventional)
 - o Aspirating/Air Sampling Type (VESDA)
 - o Beam Detection
 - o Addressable /Conventional Spot Type Detection (Heat, Smoke, Multi-Sensor, Rate of Rise, Flame etc.)
- ✓ Fire Protection System
 - o Standpipe Wet Riser Hose System (Hydrant System)
 - o Sprinkler System
 - o Clean Agent Extinguishing System (FM-200, NAFS125, NOVEC 3M 1230)
 - o AFFF System
 - o Deluge System
- ✓ HVAC systems and specialized solutions
(for Pressurized Staircase & Basement Ventilation)
- ✓ Building Management System (BMS)
- ✓ Lightning Protection System (LPS)
- ✓ Personal Protective Equipment (PPE)
- ✓ Pump, motor and gen-set
- ✓ Earthquake Sensing & Gas Detection System
- ✓ Aerosol Based Total Flooding system (FirePro)
